Comprehensive Guide to Administration and Interpretation of Vestibular Tests

October
23-25, 2019

Course fee:

- Course days 1, 2 & 3: \$730.00
- Course days 1 & 2: \$495.00
- Course day 3 only: \$250.00

Register by: June 7, 2019

Location: COURTYARD CHICAGO
Downtown/Magnificent Mile
165 East Ontario Street
Chicago, Illinois 60611 USA
(Breakfast & Lunch provided.)

Register online at:

Interacoustics

Presenters:

Kamran Barin, Ph.D.

Assistant Professor Emeritus,
Department of Otolaryngology-
Head & Neck Surgery and
Department of Speech & Hearing
Science, The Ohio State
University.

He established and served as the Director of Balance Disorders Clinic at the Ohio State University Medical Center for over 25 years until his retirement in June 2011. He has published over 80 articles and book chapters and has taught national and international courses and seminars in different areas of vestibular assessment and rehabilitation.

Michelle R. Petrak, Ph.D.

Director of Clinical Audiology
and Vestibular Research for
Interacoustics.

Her primary role is development and clinical validation of new technologies in the vestibular and balance areas. She is located in Chicago where she is a licensed private practice clinical audiologist at Northwest Speech and Hearing (NWSPH). Dr. Petrak received her doctorates in Electrophysiology (1992) and Biomolecular Electronics (1994) from Wayne State University and her Masters in Audiology in 1989. She continues to lecture extensively nationally and internationally and she has numerous articles published in the hearing industry journals. She also participates on the committees for several doctoral students as support for the research projects.

Administration and interpretation of vestibular tests

This course is for audiologists, technicians, physicians, and other healthcare professionals who are involved in performing and interpreting vestibular tests. The course does not require extensive prior vestibular testing experience but we assume you have at least read your operator's manual and have observed a few tests by a more experienced colleague.

This course provides a comprehensive guide to the administration and interpretation of vestibular tests. VNG testing is covered during the first two days and the more advanced tests such as vHIT, VEMPs, rotation chair, etc. are covered on the third day.

The course begins at a basic level and proceeds systematically through more challenging topics as each step in the administration of the test is discussed in detail. For each part of the test, tracings and video clips of both normal and abnormal results are presented and the clinical implications of abnormal findings are discussed. Guidelines are provided to distinguish valid results from artifacts and to avoid common errors.

At the conclusion of the course, participants will learn how to prepare the patient, to perform vestibular tests and analyze the results, to differentiate valid findings from artifacts, to identify different abnormal findings and describe their clinical significance, and to write an informative report.

Course agenda*

DAY 1, OCTOBER 24, 2019

Time	Topics
8:00 - 10:00	Basics of VNG Eye movement recording Patient management Pretest examinations Video adjustment
10:00 - 10:30	Break
10:30 - Noon	Recognizing artifacts Calibration Overview of VNG
Noon - 1:00	Lunch
1:00 - 2:15	Pathophysiology of oculomotor disorders Performing and interpreting the saccade test Performing and interpreting the tracking test
2:15 - 2:30	Break
2:30 - 3:45	Performing and interpreting the optokinetic test Performing and interpreting the gaze test
3:45 - 4:00	Break
4:00 - 5:00	Demonstration of oculomotor and gaze tests

DAY 2, OCTOBER 25, 2019

Time	Topics
8:00 - 10:00	Pathophysiology of vestibular disorders Performing and interpreting the static position test
10:00 - 10:30	Break
10:30 - Noon	Performing and interpreting the dynamic position test Pathophysiology and treatment of BPPV
Noon - 1:00	Lunch
1:00 - 2:15	Performing and interpreting the caloric test
2:15 - 2:30	Break
2:30 - 3:45	Performing and interpreting special tests such as ice water caloric, pressure tests, SVV, etc. Reviewing and reporting test results
3:45 - 4:00	Break
4:00 - 5:00	Demonstration of static, dynamic position, and caloric tests

DAY 3, OCTOBER 26, 2019

Time	Topics
8:00 - 10:00	Pathophysiology of head impulse testing Performing and interpreting the head impulse test
10:00 - 10:30	Break
10:30 - Noon	Demonstration of head impulse test
Noon - 1:00	Lunch
1:00 - 2:15	Performing and interpreting cVEMP and oVEMP
2:15 - 2:30	Break
2:30 - 3:45	Other vestibular tests such as rotary chair and posturography
3:45 - 4:00	Break
4:00 - 5:00	Test findings for common vestibular disorders: how to integrate the results from different vestibular function tests

Comprehensive Guide to Administration and Interpretation of Vestibular Tests

Registration:

Course fees (includes breakfast & lunch):

- Attend course days 1, 2 & 3: \$730.00 (Oct. 24, 25 & 26, 2019)
- Attend course days 1 & 2: \$495.00 (Oct. 24 & 25, 2019)
- Attend course day 3 only: \$250.00 (Oct. 26, 2019)

Register by: October 2, 2019

Register online at: <https://tinyurl.com/ybcqz1fz>

Where: COURTYARD CHICAGO Downtown/Magnificent Mile
165 East Ontario Street
Chicago, Illinois 60611 USA

Hotel information: A small block of rooms will be available at a discounted rate of \$239.00/night. Must reserve room by 10/2/2019, based on availability. Book your hotel here: <https://tinyurl.com/y29cnh2x>

Interacoustics

10393 West 70th Street
Eden Prairie, MN 55344

Micromedical by Interacoustics is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

Micromedical by Interacoustics is approved by the American Academy of Audiology to offer Academy CEUs for this activity. The program is worth a maximum of 2.1 CEUs. Academy approval of this continuing education activity is based on course content only and does not imply endorsement of course content, specific products, or clinical procedure, or adherence of the event to the Academy's Code of Ethics. Any views that are presented are those of the presenter/CE Provider and not necessarily of the American Academy of Audiology. Tier 1 Credits - Micromedical by Interacoustics is applying for 2.1 CEU credits (21 credit hours) through AAA for the American Board of Audiology recertification requirements.
